PROFILE

I am passionate about fulfilling high-quality user experiences and have a wide range of experience, from managing my online business with a strong emphasis on customer experience to developing user interfaces with a variety of tools and frameworks.

EXPERIENCE

INDEPENDENT BUSINESS OWNER | FROM DEC 2017 - PRESENT
REVCOO

- Deliver fast, reliable internet access to nearly 400 monthly subscribers across the United States via 4G LTE
- Track and respond to about 100 monthly customer service tickets with personalized troubleshooting, answers to general questions, and billing accommodations
- Achieved 120% year-over-year subscriber growth in 2019 by improving the customer experience with feedback analyses, subsidized equipment, and improved email response times

WRITER & VIDEO PRODUCER | FROM MAY 2015 - PRESENT
ANDROID AUTHORITY

- Published 68 written articles and 75 videos receiving more than 23 million views from a diverse global audience
- Collaborated with marketing teams at some of the largest smartphone manufacturers to produce native content
- Reported on announcements for nearly a dozen press events

PROJECTS

FACEFINDER: A web app that identifies celebrity faces in an image
PROJECT DESIRE: A MEAN stack web app for shipping packages
PROJECT EMERALD: An online game about philosophical implications
4CASTR: A mobile weather app downloaded more than 90,000 times
REVCOO.COM: An online store for items needed for Revcoo service
PROJECT AUREOLIN: A single-page portfolio website template
